SUGAR TAKES DROP.

Easton, Oct. 23—A startling bit of evidence which has been in the hands of the police for several days, but which they have carefully guarded, leaked out tonight and promises to cast additional interest on the case of Rev. Clarence V. T. Richeson, the Baptist minister who is confined in a cell in Charles street fall on the charge of the murder of Avis Linnell, the 19 year old music student and Sunday school teacher.

grief and worry, toid a friend, it is reported, that she can prove an alibit for her imprisoned finance. Wedding presents which arrived from distant points for the tredding have been returned.

The police s ay that Miss Linnell would have become a mother in about six months from the day of her death.

Druggist Hahn's Statement.

When the police recently gave out a statement as to evidence which had been given them by William H. Hahn, the Newton druggist, where the Cambridge paster is alleged to have bought cynaide of potassium on the Tuesday preceding the death of the Linnell girl by the same drug, they declared the paster had asked the druggist for a poison which "would kill a dog which was about to give birth to pupples." The statement stopped there. Lynchburg, Va., Oct. 23—T. V. Richeson, father of Clarefice Richeson, the central figure in the Boston murder mystery, left in the Boston murder his home in Amherst county today for the announced purpose of seeing and consulting with his son. Before leaving Amherst Mr. Richeson expressed confidence in his son's impocente. The elder Richeson and his family stoutly deny that the minister was ever engagedi to Miss Avis Linnell. His interest in her, they aver, ended in an admiration for her voice which he believed a hould be cultivated. A Significant Sentence.

Tonight, it is stated on authority that Gruggist Hahn added another sentence to the conversation he claims to have to the conversation he claims to have had with the minister, on which the police lay considerable stress. According to this authority, Mr. Hahn added that the minister also said: "I want a poison which will kill the pupples without killing the dog." Druggist Flahn declared, it is claimed, that he stated that he knew of no medicine or drug which would bring about the situation which the minister outlined.

Pastor Protests His Innocence.

While the state was collecting its evidence in the case, the Rev. Richeson lats today faced two leading members of his church and declared: "I cam innocent and will prove it when the time comes." The two men, A. F. Watson, treasurer, and N. E. Hughes, both of the Immanuel church of Cambridge, paid a visit to the man in his cell today as did Rev. George Holt, the Rhode Island decryman who is to marry the younger sister of Violet Edmands to whom Mr. Richeson was engaged. The pastor's protestation of his innocence was made to each of the visitors.

This was taken as an assurance that the wealth of Mr. Edmands as well as the means of his daughter, an hairess in her own right, would be drawn upon.

A Westhy Uncle To Assist. Still further assistance has been control the minister from his own milt. Words of encouragement and restrance of support came today from Dn Whilem A. Richeson of Amheret. Va., a wealthy uncle, who declared his fewigns was at the command of the attorners for the defense. Thus Ben Mr. Richeson, although penaltees himself, will have in defense the assistance of three.

One of the perplexing problem's which has confronted the prosecution is the apparently long time in which the cyanide of potassium actual before it caused the death of Miss Linwell. The medical examiner, Dr. Thuckay E. Leary, in his report, declared that death ensued 25 minutes after the taking of the poison. To the pedice this seems strange in view of the fact that cyanide is supposed to cause instantaneous death.

Drug To Be Analyzed.

Various explanations are being ad-anced for this seeming inconsistency. Ins is that an overdose of the pinteen eted as its own emetle. Another is hat the poison had deteriorated brough chemical action. This mat-er will be ascertained by an analysis Another is of a quantity of cyanide of potal sium to be secured from the Hahn drug store to see if the drug kept there, such as was purchased by the minis-ter, had lost its strength.

Lives Prolonged by Overdese. The medical examiner is authority for the statement, however, that no special significance need be phreed in the fact that the girl survived nearly half an hour after taking such a deadly poison, citing cases where the drug had deteriorated or an everdose had been taken so that life was prolonged.

Special Sitting Of Grand Jury. In view of the fact that the case is now in the hands of the district atnow in the names of the district at-torney and that the evidence will be presented before the grand jury on Thursday of the present week, a special sitting having been called to avoid a hearing before the numici-pal court which would divulge the evidence to the defense, the police de-clare that no more material secured by them will be given out to the press.

Defence Still Silenty, The defence, represented hy Judge The defence, represented by Judge James R. Dunbar and his son, Philip R. Dunbar, still maintain silience as to what stand they will take, when the case comes to trial. Intimation was given tonight, however, that by tomerrow or the next day a statement suld be forthcoming.
